Training meets the EPA's Renovation, Repair, and Painting Rule requirements.

- Learn to Test for Lead-Based Paint
- Practice Installing Containment
- Practice Cleaning with Wet Wipes and a Vacuum
- Practice Cleaning Verification
- Practice the skills you need to comply with the RRP Rule
- Prepares you to perform Lead Safe Work Practices
- Prepares you to train your non-certified workers
- Shows you what records to keep to help you through the "Three-Year Window of Liability"

### Why ConserveIQ Certified Renovator Training?

- You receive enjoyable training from a Contractor's Perspective.
- You will truly learn and remember the necessary information about the RRP Rule.
- You will have Two Full Hours of Small-Group Hands-On Training as required by the EPA.
- You will receive all of the information the EPA requires during the training.
- You will get the knowledge you need to comply with the RRP Rule and reduce your liability.

ConserveIQ is partnering with the National Center for Healthy Housing, an EPA-accredited training provider, to present Certified Renovator classes.
